# Muhammad Fahmi

Freelance and Instructor Data  
Science | Data Scientist

## SUMMARY

Hello, I'm Fahmi. Have an interest in working in an adaptable environment. Skilled in Analytical Thinking, Data Scientist and Python. Has experience focusing on Natural Language Processing and Data Mining. And I work as a Freelance and Instructor.

## SKILLS

Python  
Machine Learning  
Data Mining  
Natural Language Processing  
Deep Learning  
OpenCV  
Tableau  
Google Data Studio  
Scraping - Selenium  
Github  
Figma  
Leadership  
Team Work  
Problem Solving  
Creativity  
Critical  
Public Speaking

## LANGUAGES

Indonesia	Native
English	Basic

## CERTIFICATES

**Microsoft Certified Azure AI Fundamentals**  
09/2021 - Present

**Junior Web Programming - Badan Nasional  
Sertifikasi Profesi**  
09/2019 - 09/2022

## EXPERIENCE

### Data Scientist

NoLimit Indonesia  
04/2022 - Present

### Instructor - Data, Business Analytics and Operations

Ruangguru.com · Part-time  
02/2022 - Present

Become an instructor at the Studi Independen Ruangguru x Kampus Mederka, Ruangguru CAMP (Career Acceleration Bootcamp)

### Instructor - Python Data Science - Part time

Kodehive (PT Kode Gama Teknologi)  
12/2021 - Present

Create a Short Learning Video About Data Science, become a mentor at the Data Science Bootcamp

### Data Science Tutor

Superprof  
02/2021 - Present

Tutoring about: Data Science, Data Analyst, Machine Learning, Artificial Intelligence, Python, Web Basic etc.

Super teacher predicate, top 5 for search for data science and python.

### Freelance Data Scientist

Freelance  
07/2020 - Present

Freelance about: Data Science, Data Analyst, Machine Learning, Artificial Intelligence, Python, Web Basic etc

Managed to get approximately 50 clients in teaching courses online.

### Lead Data Scientist - Intern

Kebun Pintar  
07/2021 - 03/2022

### Data Scientist

PT Bank Mandiri (Persero) Tbk. · Freelance  
11/2021 - 12/2021

I am a data scientist working on the Talent Score Card project at Setneg in collaboration with myself. Create a recommendation system using the similarities between data and natural language processing.

## EDUCATION

---

### Informatics Engineering

Politeknik Pos Indonesia

2021

Applied Bachelor Degree

GPA : 3,54/4

Project :

- Project I - Implementation of Smart Box Logistics
- Project II - Human Brain Wave Detection
- Project III - Automatic Door Face Recognition using Arduino and Python

Organizational Experience :

- Head of the Syi'ar Department of Muslim Organizations (Lembaga Dakwah Kampus) | 2018 - 2019
- Minister of Communications and Informatics of Student Executive Board (Badan Eksekutif Mahasiswa) | 2018-2019

Volunteers & Training :

- Design and Media Class Speaker held by Muslim Organizations | 2020
- Python Training Speaker, Become a teacher in Python language training activities for beginners | 2019
- Became the Head of the division in the lyale West Java community service activity | 2018

Achievements and Awards :

- PT Pos Indonesia Scholarship | 2018 and 2019
- Become a Participant in the Higher Education LLDIKTI Innovation Exhibition | 2019
- Become a winner in the videography competition at the BYMC LDK Baraya activity | 2018

### Data Science

DQLab.id

2020

Non Formal

### Natural Sciences Major

SMA Negeri 2 Kisaran

2017

Senior Highschool

### Head Of Academy Division - Student Ambassador

BISA AI Academy (PT BISA ARTIFISIAL INDONESIA)

04/2021 - 07/2021

Became Head of the Academy Division for Student Ambassador

- Manage Team
- Data Science Speakers of Webinar
- Promotion

### Academy Divison - Student Ambassador

BISA AI Academy (PT BISA ARTIFISIAL INDONESIA)

04/2021 - 04/2021

### Data Analyst

Kebun Pintar

03/2021 - 07/2021

### Student Ambassador

BISA AI Academy (PT BISA ARTIFISIAL INDONESIA)

02/2021 - 03/2021

### Data Scientist - Internship

PT. Telekomunikasi Indonesia Tbk Direktorat Digital Business (TELKOM DDB)

08/2020 - 01/2021

- Business Understanding

Conduct business understanding to work on recommendation system projects related to what training is suitable for employees.

- Data Understanding

Understand what data is needed to obtain a recommendation system built solutions.

- Web Scraping

Data collection using selenium python from online course websites.

- Data Preprocessing/Cleaning.

Cleaning data from data that has been collected.

- Recommendation System

Make a recommendation system regarding what training is suitable for holding.

- Emerging Topic Recommendation

Make recommendations on what topics are trending in 2021.

- Web Developer

Visualization to website.

### Website Administrator And Marketing

Pisang Mesir Indonesia (Retail)

08/2018 - 08/2019

- Website Administrator
- Digital Marketing Instagram
- Sales
